

## You Save. The Environment Wins.

### Why recycle?

It's good for your budget and good for the environment. Over its lifetime, an old refrigerator can produce as much as 10 tons of CO<sub>2</sub>, a primary contributor to climate change. Recycling yours would be like keeping the CO<sub>2</sub> emissions from two cars out of the atmosphere. In addition, you'll get \$35 from PG&E and begin saving on your energy bill immediately – up to \$250 annually.\*

\*This estimate is based on a residential average of 16.342 cents per kWh and an average usage of over 1530 kWh.

"PG&E" refers to Pacific Gas and Electric Company, a subsidiary of PG&E Corporation. This program is funded by California utility customers and administered by Pacific Gas and Electric Company under the auspices of the California Public Utilities Commission.

## It Pays To Recycle Your Old Refrigerator

Get \$35 from PG&E

## It's easy to recycle your refrigerator or freezer.

- Make sure your unit is in working order
- Call or log on to [www.appliancerecycling.com](http://www.appliancerecycling.com) to schedule a free pick-up
- We pick up your old unit
- You receive \$35 from PG&E
- Begin saving on your energy bill immediately
- If you replace as well as recycle, your new ENERGY STAR® fridge will pay for itself in a few years

## What happens to your old unit?

PG&E's Appliance Recycling Program promises important environmental benefits. Approximately 98% of all materials from your refrigerator and/or freezer are recycled, all harmful chemicals are safely disposed of and almost nothing goes to a landfill.

## Good for your budget. Good for the environment.

- Reduce your annual electricity bill by up to an average of \$250
- Keep as much as 10 tons of CO<sub>2</sub>, a primary contributor to climate change, out of the atmosphere (what two cars would produce in one year)
- Help reduce regional power demand
- Keep old units and potentially harmful chemicals out of landfills

## Recycle your old fridge today – it's easy.

Help protect the climate and keep more cash in your pocket. Recycling your fridge or freezer with PG&E pays in more ways than one. To schedule a FREE pick-up, visit [www.appliancerecycling.com](http://www.appliancerecycling.com) or call 800-299-7573 today.
